DETAILED ACTION

Reissue Applications

1. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414. The error statement included in the oath/declaration is not specific enough as it only includes referenced figures and column numbers without an explanation.

2. Claims 1-33 and 40-55 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

3. The original patent is not currently in force. Two petitions have been filed to request acceptance of late payment of the maintenance fees, but both have been denied. The current application cannot be patented unless the original patent is in force.

4. Claims 1-33 and 40-55 are rejected as being based upon a defective reissue original patent under 35 U.S.C. 251 as set forth above. See 37 CFR 1.138.

The nature of the defect(s) in the original patent is set forth in the discussion above in this Office action.

Specification

5. The disclosure is objected to because of the following informalities: All continuity data must be referenced in the first paragraph of the specification, including the pending child reissue application.

Appropriate correction is required.

Response to Amendment

6. Applicant is notified that any subsequent amendment to the specification and/or claims must comply with 37 CFR 1.173(b).

7. The amendment filed September 4, 2007 is non-compliant because claim 45 does not include a status identifier. A supplemental paper correctly amending the reissue application is required.

Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erika A. Gary whose telephone number is 571-272-7841. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Appiah can be reached on 571-272-7904. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
